

3 November 1978

MEMORANDUM FOR THE RECORD

SUBJECT: Conversation with Dr. William Perry, Under SecDef
for Research & Engineering, 3 November 1978

On 3 November, I had a discussion with Bill Perry regarding [redacted] s status with respect to the Technology Trends Colloquium. Bill said that he would be happy to ask Dr. Garber to leave [redacted] adequate time to carry on the continuing work of the colloquium. He said if it got to the point that this created a problem or interference with [redacted] other responsibilities because the workload for the colloquium increased, we would have to look at whether [redacted] could be brought back at full-time or somebody else could be brought in to carry or share the load. I told him we would be happy to provide partial financial compensation under these circumstances. He said he didn't think it would be necessary.
